# EASE PC Scan Tool Software Add-On

## Use Your Pass Thru Pro II Reprogrammer As A Scan Tool

**Display Data Like This  
With Your  
Snap-on Pass Thru Pro II  
and EASE**

**Turn Your PC Into A Powerful Diagnostic Workstation With  
The EASE PC Scan Tool Software Add-On And Your Snap-on  
Pass Thru Pro II Reprogrammer!**

With the our Version 10 release, you can combine the power of the award winning EASE PC Scan Tool with the Snap-on Pass Thru Pro II Reprogrammer so you can scan and reflash using a single interface.

With the EASE PC Scan Tool, you get high-speed access to vehicle data on your PC so you can easily and quickly perform diagnostics. This powerful software offers more features than any other scan tool - hand held or PC based. Other scan tools only show you a few lines of vehicle parameter values, with no way to put the whole picture together. With the EASE PC Scan Tool, you'll see loads of vehicle data in a user friendly format on your large PC screen so you can quickly see the whole picture - making your job much easier.

There's no need to buy two separate systems for diagnostics and reflashing. Version 10 works with the Snap-on Pass Thru Pro II Reprogrammer and supports J2534 data protocols on 1996 and newer vehicles (pre-OBD II protocols on 1996+ vehicles are not supported).

**Works with Snap-on  
Pass Thru Pro II  
Reprogrammer**
